## Boar's Head, Compromise Elsewhere Since 1905

At Boar's Head, we pride ourselves on being master artisans in the food industry. Our products are of unquestionable quality, without compromise, using only the best natural ingredients and nothing else.

Boar's Head is committed to providing simply the best for Chefs. We offer a wide variety of products that allow Chefs to be creative by leveraging our unique bold flavors and solutions.

### A History of Quality

Frank Brunckhorst founded the Boar's Head Brand in 1905, with one simple mission: to offer products of the highest standards. And to this day, Boar's Head refuses to cut corners. We still focus on using only premium cuts of meat, skillfully hand-trimmed and hand-crafted just like we have been doing for over 110 years.

## Helping Chefs Achieve Perfection Every Day

As the Boar's Head portfolio line has grown, so too has the demand for our foods from Chefs and Operators across the country. With a wide array of quality products to choose from, we offer Chefs and Operators the variety and flexibility they need to achieve maximum results every time they create a dish.

## Meeting the Demand for Premium Products

At Boar's Head, we understand that our customers expect outstanding quality products — which is why we offer hand-crafted, authentic selections.

# Higher Standards for Premium Foods

## Meats

All of our beef is hand-trimmed. Boar's Head hams are slow-cooked or naturally smoked. Our poultry items are slow roasted, just the way you would roast yours.

## Cheeses

Our entire line of cheeses are made with pure milk - no added powders or fillers. Our slicing cheeses are designed for end to end use, eliminating shrink. Boar's Head cheeses are unmatched in quality and hand-made craftsmanship.

## Condiments & Snacks

Boar's Head condiments and snacking items feature authentic Chef inspired flavors. Our condiments pair beautifully with our meats and cheeses. Boar's Head snacks offer great taste with convenient, easy to carry packaging.
